

Gring and Woodin's
Adventure in
Water Kingdom
13

The
thirteenth
issue
December
2015

Story so far

Finally Gring and his friends arrived at the Monster Lab. They found that the monsters were enraged because of the polluted water from the Lab. They decided to find Walwarl to stop the research at the Lab.

Let's find Walwarl!

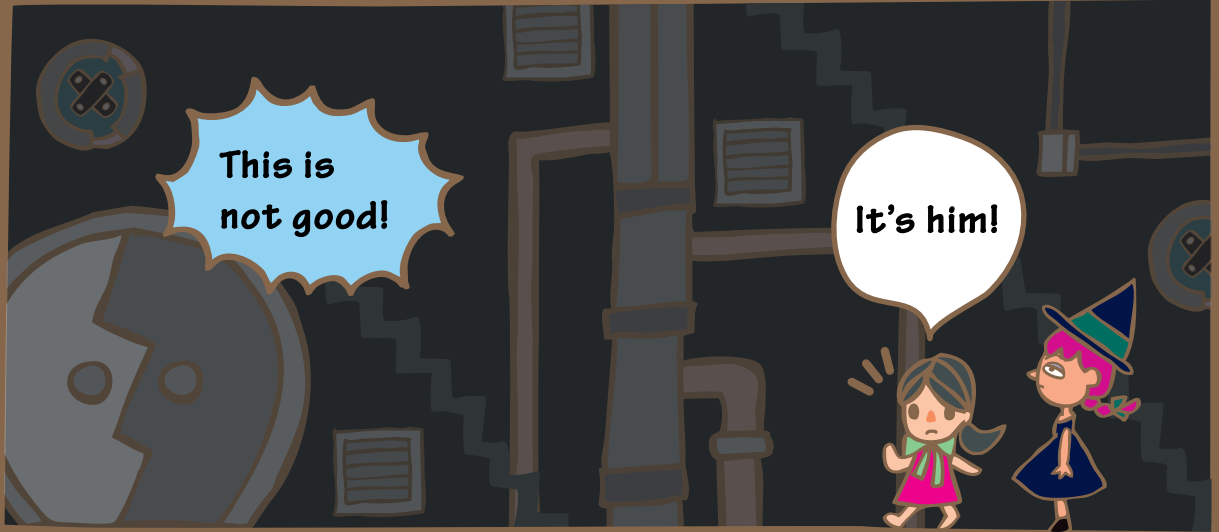

Step
Step

You can read the previous issues of this comic on the website of the Asahi Glass Foundation. (You can find the URL on the final page).

This is not good!

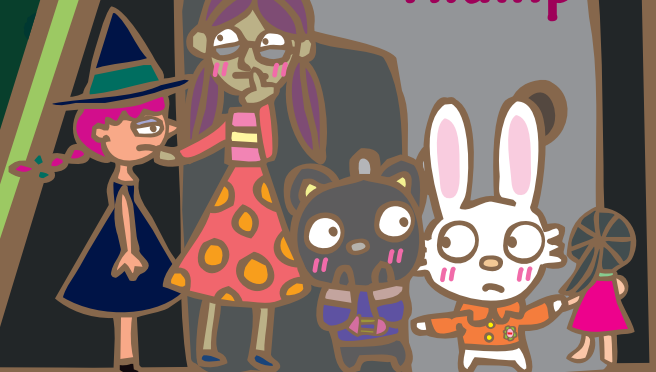

It's him!

The voice comes from this room

Thump

Thump

He's there!

That's true!

It's heavy

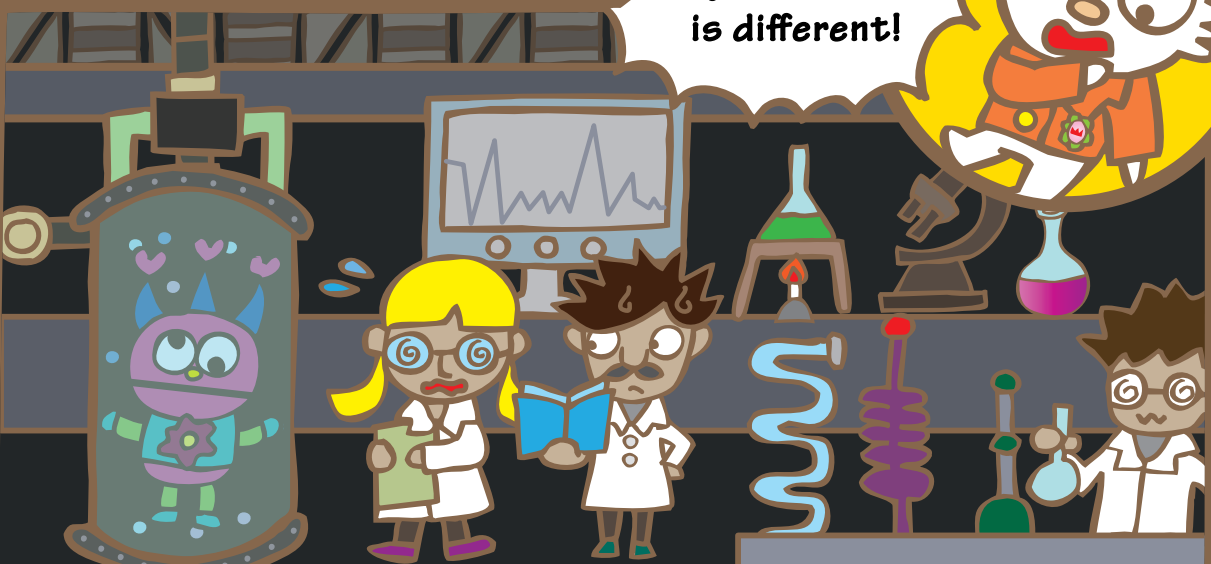

Snoop

Snoop

What is he doing...?

What shall I do?
I can't make it to
the birthday party!

Why? The robot
is different!

Stride
Stride

Ta-da

Mr. Walwar!!!

Stop the research
right now!

What?

Are you...?

I'm
Little Ima!

Why...?
I am just...

Mumble

Mumble

Creating
a friend...

For the
princess...

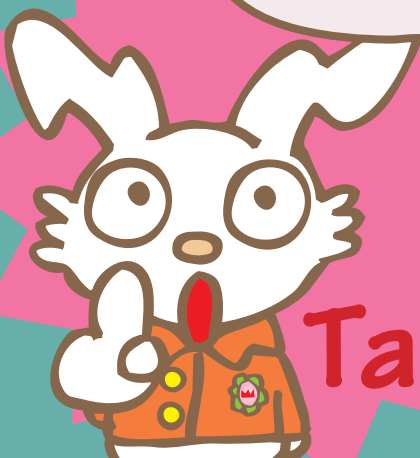

Who are you?

We are Gring
and Woodin

We found where
the monsters
come from!

Ta-da

Your servant robots
are enraged!

Splash
Splash

It's because of the polluted
water flowing out of this Lab!

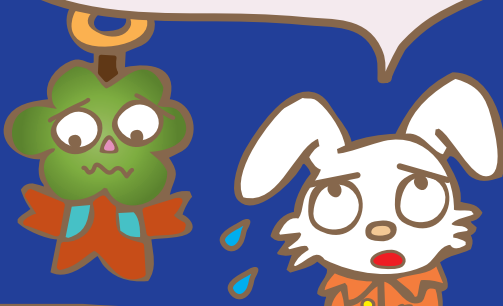

I'm sorry Mr. Walwarl,
we were the ones who
were troubling the Kingdom...

It can't be...

Woodin's body has also
changed color because
of the polluted water

There are many plants
at Dr. Imai's that being ill

*Appeared in
the fifth issue

Don't run away!

Majolaine is a nice girl. I can guarantee!

Probably Walwarl is afraid of me!

Ta-da!

Majolin!?

Why are you... Ouch!

Ya!

Bump

...

We are childhood friends!

Nooo

That witch alert was to keep me away, wasn't it?

Because...
You are scary...

Witches are not scary!

Majolin teases you because she likes you

...

You should be nice to him!

I know

Now what shall I do first to clean the water in the Kingdom?!

How about picking trash? I have seen the people in the Kingdom throwing away garbage!

That's right! We saw a lot of trash at the entrance of the castle!

*Read the ninth issue for the story about the trash

Little Ima coordinated my clothes there!

We have to cherish our clothes! It's important not to produce garbage!

There was trash everywhere, and water was wasted
* Read the tenth issue for the story about the trash

We also learned
to pick up
the garbage and
stop wasting water.

It is the most
important that
everyone in
the Kingdom
cherish things
and water!

That's true!
Then I shall
inform everyone
at the princess'
birthday party
tonight!

Okay! Let's create
a poster for the earth!
It should have
a daily checklist
on the back.

Yes!!

Everyone tried hard to create
the poster and checklist.

Let's Clean the Town and our blue planet (Earth)!

Let's work on the check list together!

What You Can Do for our blue planet

When you did something ecological,
circle **“Done”!**

Use an eco-bag
for shopping

Done

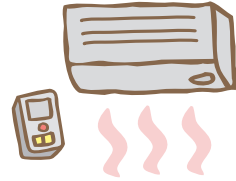

No
leftovers

Done

Set air conditioner
at 20-22 degrees

**28 degrees for summer*

Done

Turn off
unnneeded
lights

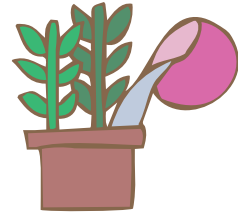

Done

Stop the water
while brushing
teeth

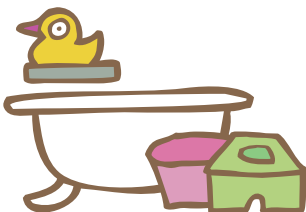

Done

Use the water left over
from boiling to water
your plants – just let it
cool down first!

Done

Use bath water to
the lawn especially
in hot dry summers.

Done

Recycle clothes
you do not wear

Done

Separate waste

Done

We did it!

Once they have this poster, I'm sure that they will use the checklist

May I invite you to the birthday party?

Are you sure?

Ha... Leave it to me!

Let's use the waste at Lab

There you go!

Pop

Pop

Majolin turned the garbage into dresses with her magic!

Gring and his friends handed out the posters

Please
take this!

Then everyone cleaned
the Kingdom together

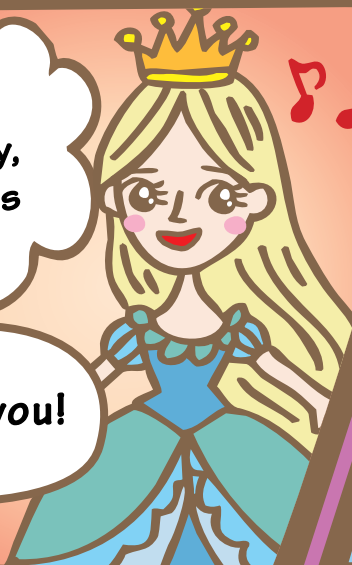

Everything was cleaned!

Happy birthday, Princess

Thank you!

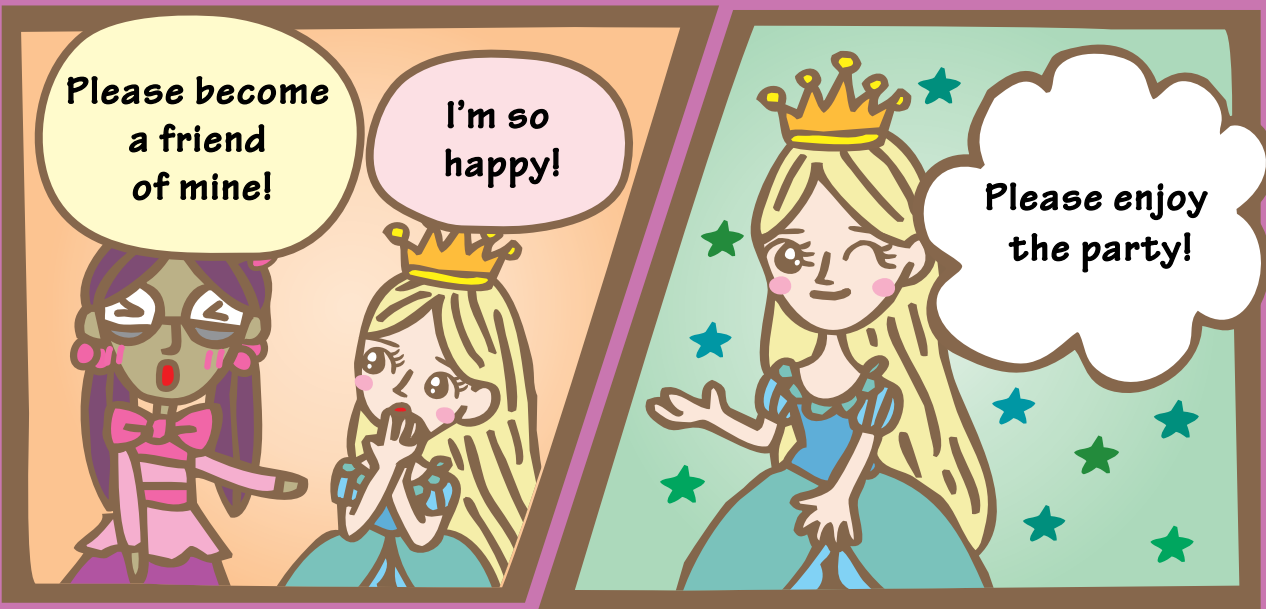

Everyone, thank you very much I'm going to clean the Kingdom from now on

Ta-da!

Princess! I have a present for you!

Goodbye everyone!

Gring and Woodin found
it important doing good,
even small, for our planet
every day
through their adventure

Fin

Thank you very much

Gring and Woodin's Environmental Doomsday Clock

New series
starts
in 2016!
