

The Second Presentation of Foundation-Assisted Research Findings Overseas

Institute Technology Bandung, Indonesia:

Date: November 30, 1994

Place: Aula Barat Auditorium, Institute Technology Bandung

The Institute Technology Bandung held its second seminar to publicize the results of Foundation-assisted research. In 1993, the first such seminar was held in Jakarta on the topic of chemical engineering. The 1994 seminar, the first to be convened on campus, included the following lectures.

Many researchers from universities in western and central Java Participated in the event, asking insightful questions and provoking lively discussion.

Professor Dr. Wiranto Arismunandar, the rector of the Institute Technology Bandung, commented on how pleased the researchers were to have been chosen to receive Foundation assistance and how the opportunity to publicize their findings motivated them in their work.

- (1) Professor Dr. Sjamsul Arifin Achmad
Keynote Lecture: Chemical Assessment of Tropical Rainforest Plants for Discovery of New Drugs
- (2) Dr. Sundani Nurono Soewandhi
Etherification of Iles Mannan to Improve its Usage as an Excipient in Pharmaceutical Technology
- (3) Dr. Sri Nanan Widiyanto
In Vitro Selection and Production of Rice Plantlets Tolerant to Blast-Toxin
- (4) Dr. Ir. Tri Partono Adhi
Development of an Electrofiltration Device for Protein Separation and Purification
- (5) Dr. Ir. Adang Surahman
Experimental Research on High Strength Concrete
- (6) Dr. Ir. Arief Sudarsono
The Washing and Preparation of Indonesian Coal
