

The Fifth Presentation of Foundation-Assisted Research Findings Overseas

Institute Technology Bandung, Indonesia:

Date: February 10, 1998

Place: Aula Timur Auditorium, Institute Technology Bandung

The Institute Technology Bandung held its fifth seminar to publicize the results of Foundation-assisted research. The seminar, attended by more than 100 students, researchers, and members of the press, began with an opening address from Lilik Hendrajaya, rector of the Institute. Dr. R.E. Soeriaatmadja, chairman of the Institute's research facility, also addressed the audience on research efforts at the Institute. The seminar included the following lectures.

- (1) Dr. Kosasih Satiadarma
The Analysis of Trace Amounts of Essential and Toxic Metals in Natural Waters by Inverse Voltametry and Proportional-Integral Coulometric Titration
- (2) Dr. Eddy A. Subroto
Identification of 'Oleanoids,' Common Substances Found in Coaly Source Rocks and Crude Oils in Indonesia and Their Use in Oil Exploration
- (3) Dr. Tati Syamsudin Subahar
Biological Meaning of Methyl Eugenol to Fruit Flies
- (4) Dr. Dwiwahyu Sasongko
Secondary Reactions in Pyrolysis of Indonesian Coals
- (5) Dr. Intan Ahmad
Developing a Neem-Based Pest-Management Product: Greenhouse Evaluations of Neem Extracts on Insect Pests Resistant to Synthetic Pesticides
- (6) Dr. Endang Kumolosasi
The Localization of Matrix Extracellular Laminin and Fibronectin in Male Rats Infected by Candida Albicans
