

The First Presentation of Foundation-Assisted Research Findings Overseas

Chulalongkorn University, Thailand:

Date: February 26, 1993

Place: Chulalongkorn University

Theme: "Overview of Petrochemical Technology"

Chulalongkorn University held a seminar to share the results of its Foundation-assisted research with a wide range of interested persons. Many industry and university researchers were among the approximately 60 attentive guests. The seminar featured four presentations by university researchers and technicians pursuing Foundation-assisted research. The research lecture titles and researchers are listed below.

- (1) Dr. Pailin Chuchottaworn, Director, Deputy Managing Director, Bangkok Polyethylene Co., Ltd.
The Current State of the Petrochemicals Industries in Thailand
- (2) Dr. Wiwut Tanthapanichakoon, Associate Professor
Synthesis of Alcohols from Synthetic Gas
- (3) Dr. Piyasan Prasertthdam, Professor
Catalyst Deactivation and Improvement
- (4) Dr. Chairit Satayaprasert, Associate Professor
Removal of Nitrogen Oxide Pollutants from Gaseous Emissions
