

The Third Presentation of Foundation-Assisted Research Findings Overseas

Chulalongkorn University, Thailand:

Date: January 20, 1995

Place: Conference Room, The Main Auditorium Chulalongkorn University

Theme: "Public Health and Biochemistry"

Chulalongkorn University held its third seminar to publicize the results of Foundation-assisted research. Dr. Krasae Chanawongse, M.D. the Thai Minister of University Affairs, gave a speech thanking the Foundation for its long support of research at Chulalongkorn University and expressing his hopes that the findings publicized at the seminar would be used to the benefit of the people of Thailand. A number of lectures, which are listed below, were presented at the seminar. The lectures were followed by question-and-answer sessions, in which the many attendees, mainly researchers from universities throughout greater Bangkok, participated enthusiastically.

- (1) Professor Charas Suwanwela, M.D., President of Chulalongkorn University
Keynote Lecture: Essential Research in Basic Sciences for Public Health in Thailand
- (2) Dr. Vilai Chentanez, Associate Professor
Effect of Infrared Laser on Denervated Muscle: An Experimental Study on the Rat
- (3) Piyaratana Tosukhowong, Associate Professor
Erythrocyte Na, K-Activated Adenosine Triphosphatase (Na⁺ -K⁺ Pump) Among Different Population Groups of Bangkok and Northeast Thailand
- (4) Dr. Chirakarn Muangnapoh, Associate Professor
High Butanol Productivity by a Single-Stage Bioreactor with Microfiltration
- (5) Mr. Boonnart Laisnitsarekul
Holistic Approach Training for Thai-Japanese Health Professions
- (6) Dr. Khanit Suwanborirux
Study on Bioactive Natural Products from Thai Marine Invertebrates
- (7) Dr. Pornthep Tiensiwakul, Associate Professor
Application of Polymerase Chain Reaction (PCR) Assay for the Diagnosis of HIV-1 and HIV-2 Infections.
