

The 10th Presentation of Foundation-Assisted Research Findings Overseas

Chulalongkorn University, Thailand:

Date: May 31, 2002 9:00-15:30

Place: Conference Room, 2nd Floor, The Main Auditorium
Chulalongkorn University

Theme: "Material Sciences and Medicinal Plants: Technologies for the Future"

Dr. Tatchai Sumitra, president of the university, Chairman Seya and Songkram Luangtongkum, deputy vice-minister of the Ministry of University Affairs delivered greetings and congratulatory speeches. The event was attended by an enthusiastic audience of approximately 100, including researchers from universities and companies in the Bangkok area and Japanese nationals stationed nearby, that participated in the lively question and answer period at the end.

Material Sciences session:9:30-12:05

- (1) Dr. Masaru Yoshitake, Principle Researcher, Research Center Asahi Glass Co., Ltd.
Keynote Lecture: Membrane Technologies at Chemical Companies in Japan
- (2) Dr. Visit Thaweepungsriporn, Department of Nuclear Technology, Faculty of Engineering
Microstructure Characterization Using Compensated Doppler-Broadened Positron Annihilation Spectroscopy
- (3) Dr. Wit Soontaranun, Department of Chemical Engineering, Faculty of Engineering
Improvement of Electrolytic Lead Recovery Processes Using Anionic Membranes

Medicinal Plants of Thailand session:13:00-15:20

- (4) Dr. Khanit Suwanborirux, Department of Pharmacognosy, Faculty of Pharmaceutical Science
Keynote lecture: Bioactive Natural Products from Thai Marine Organisms
- (5) Dr. Udom Kokpol, Professor, Department of Chemistry, Faculty of Science
Bioactive Compounds from Thai Plants
- (6) Dr. Kittisak Likhitwitayawuid, Associate Professor, Department of Pharmacognosy, Faculty of Pharmaceutical Sciences
Tyrosinase Inhibitors from Plants
