

## 2006 Overseas Research Grants Presentation Ceremony and the Research Findings Seminar

The research grants presentation ceremony and the presentation meeting of research outcomes were held on July 25th at Chulalongkorn University in Thailand and on July 27th at the Institut Teknologi Bandung in Indonesia.

### Chulalongkorn University, Thailand

The research grants presentation ceremony and the presentation meeting of research outcomes were held on July 25th from 9 a.m. to 12:30 p.m. at the Chulalongkorn University auditorium. Following an address by Sootiporn Chittmitrapap, the university's vice president, congratulatory remarks by Chairman Hiromichi Seya, and an opening address by Khuying Suchada Kiranandana, the university's president, Chairman Seya presented the awards to this year's 10 grant recipients. This was followed by the keynote lectures about molecular biology and material engineering. Afterwards, a total of nine seminars about the research outcomes were held in two lecture halls, medical science and scientific technology.

Grant recipients with Chulalongkorn University and Asahi Glass Foundation personnel

### Institut Teknologi Bandung, Indonesia

Senior Executive Director Uchida presents awards to grant recipients at the Institut Teknologi Bandung

The research grants presentation ceremony and the presentation meeting of research outcomes were held on July 27th at an auditorium of the Institut Teknologi Bandung. Following remarks by Institut Teknologi Bandung Professor Edy Soewono, Asahi Glass Foundation Senior Executive Director Keiichi Uchida, Secretary Kei Eda from the Japanese Embassy in Indonesia, and Institut Teknologi Bandung Rector Djoko Santoso, Senior Executive Director Uchida presented the awards to this year's 10 grant recipients. Research outcomes were presented from the 15 studies that were awarded grants from the Foundation in 2005. Further, because this year's Blue Planet Prize recipient Dr. Emil Salim (the former State Minister for Population and Environment) has had a profound relationship with the Institut Teknologi Bandung as its board member, Senior Executive Director Uchida took this opportunity to introduce the Blue Planet Prize to the audience.
