

The 13th CU-af Seminar (July 26, 2005)

Keynote Lecture :

“Contribution of Health Sciences Research to Health Development”

by Chitr Sitthi-amorn, M.D., M.Sc., Ph.D., Director of Institute of Health Research and Dean of the The College of Public Health

Research Titles and Presenters are :

- 1.) **“Measurement of Urinary Growth Factor Messenger RNAs: A Non-invasive Monitoring in Lupus Nephritis”**
by Assist. Prof. Yingyos Avihingsanon, M.D.
- 2.) **“The Roles of Initial Plasma Venom Levels and Coagulation Laboratories in Predicting Clinical Courses of Green Pit Viper Bites”**
by Assist. Prof. Ponlapat Rojnuckarin, M.D.
- 3.) **“Cow’s Milk Specific IgG and IgG Subclasses Measurement : Role for Diagnosis of Cow’s Milk Allergy”**
by Lecturer Pantipa Chatchatee, M.D.
- 4.) **“Screening and Characterization of Proapoptotic Low-molecular Weight Compounds as Potential Anti-tumor Agents from Microbial Secondary Metabolites and Medicinal Plant Extracts”**
by Assist. Prof. Tanapat Palaga
- 5.) **“Catalytic Pyrolysis of Polyethylene and Polypropylene Waste Films Into Valuable Upstream Petrochemical Products”**
by Assist. Prof. Sirirat Jitkarnka
- 6.) **“A Well-defined Proton Transfer Route in Polymer Matrix: An Enhancing Proton Migration System for Polymer Electrolyte Membrane used in Fuel Cell”**
by Assoc. Prof. Suwabun Chirachanchai
